Online Futures Trading System [Version 2.1.0 (20090828)]
Disclaimer
Disclaimer
I understand that the price of futures and options can and does fluctuate, and that any individual futures or options may experience downward movement, and may under some circumstances even become valueless. There is an inherent risk that losses may be incurred rather than profit made as a result of buying and selling futures and options.
I acknowledge that transactions undertaken on an electronic trading system, exposes me to risks associated with the system including the failure of hardware and software, and that the result of any system failure may be that my order is either not executed according to my instructions or is not executed at all. In addition, due to unpredictable Internet traffic congestion and other reasons, electronic transmission may not be a reliable medium of communication, for example transactions conducted via electronic means are subject to delays in transmission such as delays in receipt of my instructions or other information and delays in execution or execution of my instructions at prices different from those prevailing at the time my instructions were given, transmission interruption or blackout and that there are risks of misunderstanding or errors in communication. I acknowledge and understand that you will not be responsible for any delay or error in, or distortion or incompleteness of, transmission, receipt or execution of my instructions due to either a breakdown or failure of transmission of communication facilities or unreliable medium of communication.
I further acknowledge that there are risks of my access code or login password being abused or utilised by unauthorised persons. If there is any unauthorised use of my trading or login password, I shall notify you immediately and I agree that I shall bear all risks in connection with any unauthorised use of my trading or login password and I shall indemnify you on demand for any losses, costs, damages, expenses or claims which you may suffer as a result of any unauthorised use of my trading or login password.

Disclaimer- Online Global Futures Trading
Disclaimer- Online Global Futures Trading
We are pleased to announce that Online Global Futures Trading is now available. If you would like to trade Online Global Futures, please read through the following "Disclaimer- Online Global Futures Trading" and click on [Accept].
Disclaimer- Online Global Futures Trading
1. Liquidation of Accounts
I understand that if the equity in my Futures Account (regardless of the assets and equities in my Securities Account and/ or Options Account)) falls below the maintenance margin level as determine by you from time to time in respect of all open positions, I will be notified to pay additional margin or close out the existing position in order to meet the maintenance margin level. If I fail to do so, I agree that you have the rights to close out ALL outstanding futures contract(s) in my Futures Account at your absolute discretion and sole judgment without prior notice to me and apply the proceeds thereof in such manner as you may in your absolute discretion determine.
I understand that on the exercise of the rights as aforesaid, I will still be liable for any debit balance remaining in my Account and I shall be liable for all losses arising out of close out of my outstanding futures contracts as aforesaid.
2. First Notice Day
I understand that I should, one day before the first notice day, either close out or give instructions to you to close out all long position(s) of futures involving physical delivery settlement and maturing in a current futures contract month. If I fail to do so, any outstanding long position(s) maturing in a current futures contract month as at one day before the first notice day will be closed out by you on my behalf by such

Read through it carefully and click the "*Accept*" button.

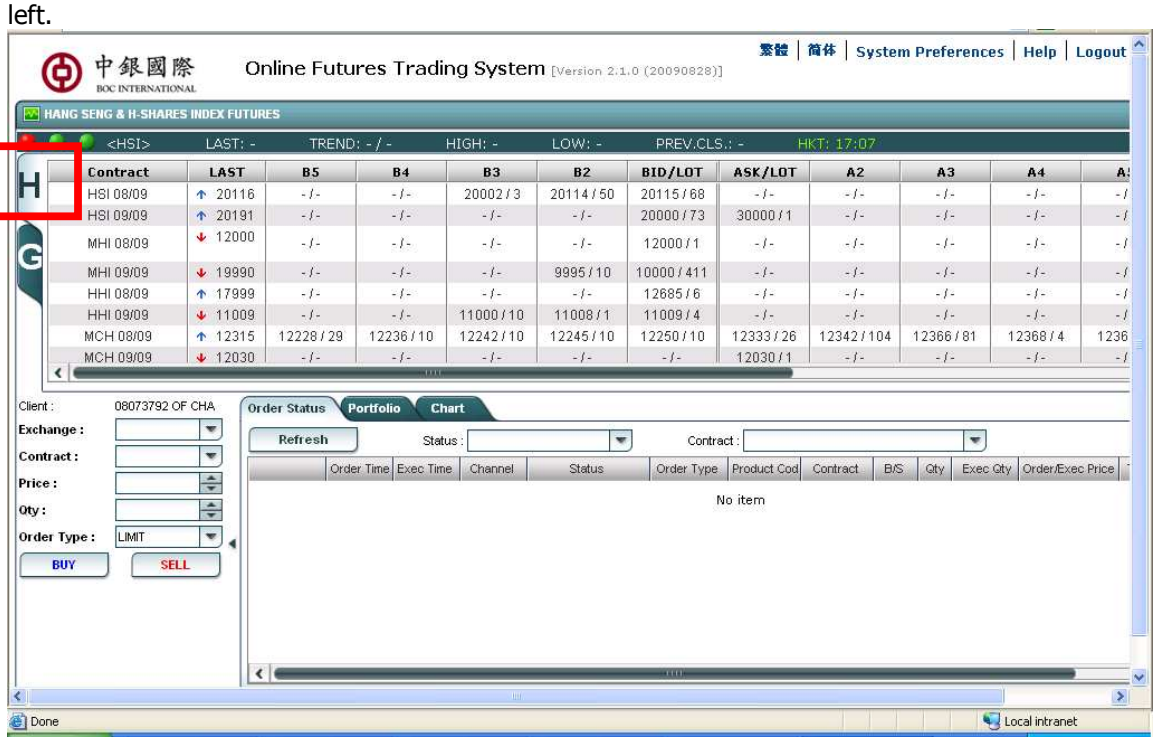
3 Market Data

3.1 Real-time Quote

The upper part is the *"Real-time Quote"* of a pre-defined group of futures contracts. There are 3 green indicators at the top left corner. The left, middle and the right indicator indicates successful connection to the local market data feed server, the global market data feed server, and the order management system respectively. If the indicators turn red, the corresponding connection is unavailable.

When this page appears below, the Local Market Data will be listed under the "H" Tab that locates on the left.



Click on the "G" Tab on the left, then choose to add 1 to 4 Global Futures Contract to show the relevant indices on the list.

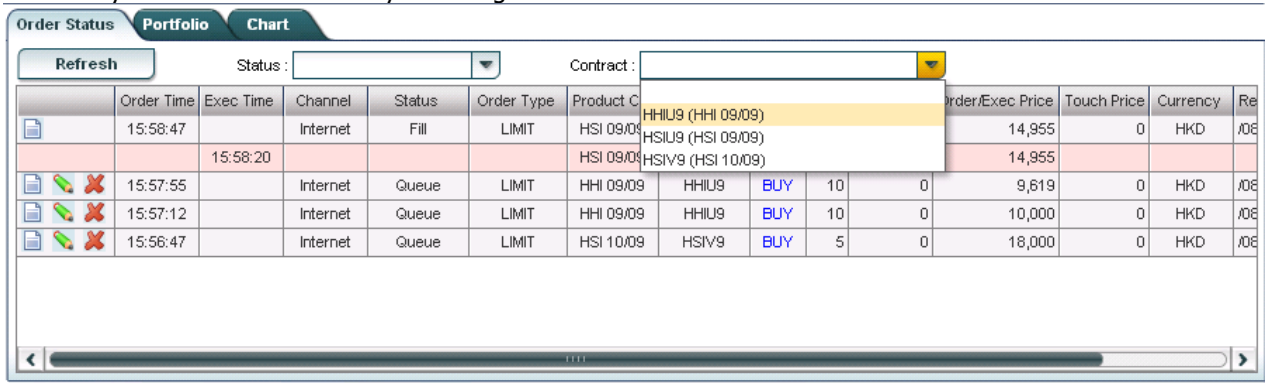
4.4.2 Contract Filtering

Users may also filter the orders by choosing different *"Contract"*.



4.4.3 Order Details Enquiry

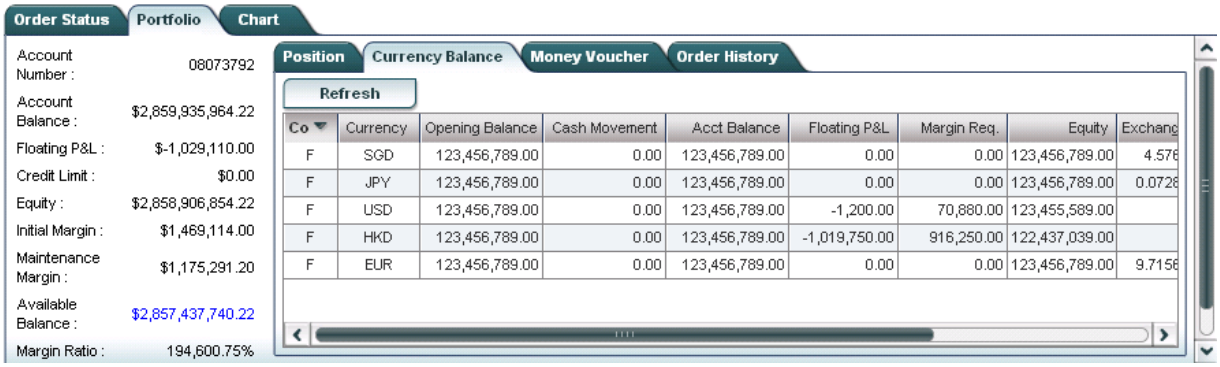
Users click the *"Document"* icon in *"Order Status"* Tab and a new window with order details will be shown.

5 Client Portfolio

In the *"Portfolio"* Tab, users could check the account summary, *"Currency Balance"*, *"Money Voucher"*, *"Position"*, and *"Order History"*.

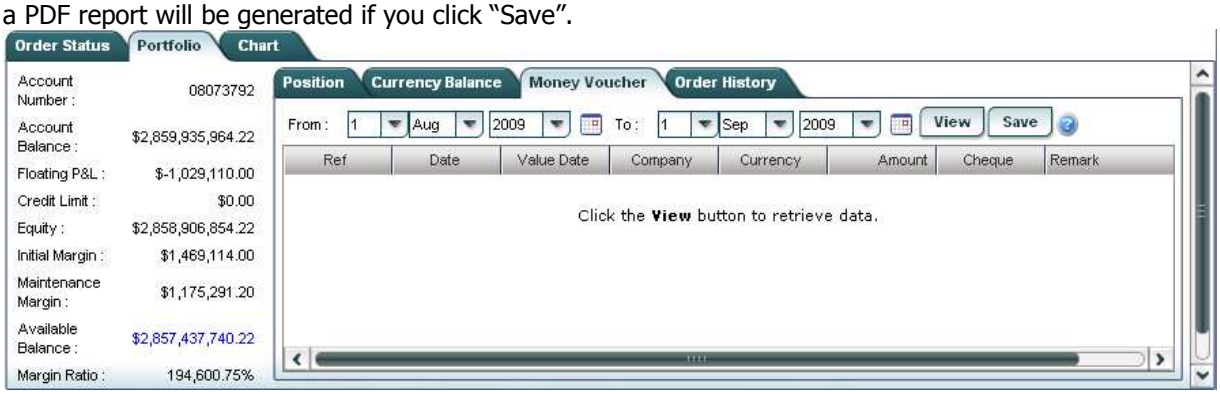
5.1 Currency Balance

It shows the account balance of all currencies. In order to reflect the purchasing power, the *Available Balance* includes all foreign currency in terms of Hong Kong Dollar and it also includes the funding in Stock Option Account. To avoid paying interest due to insufficient fund, please contact your Account Executive to transfer fund or FX after trades.



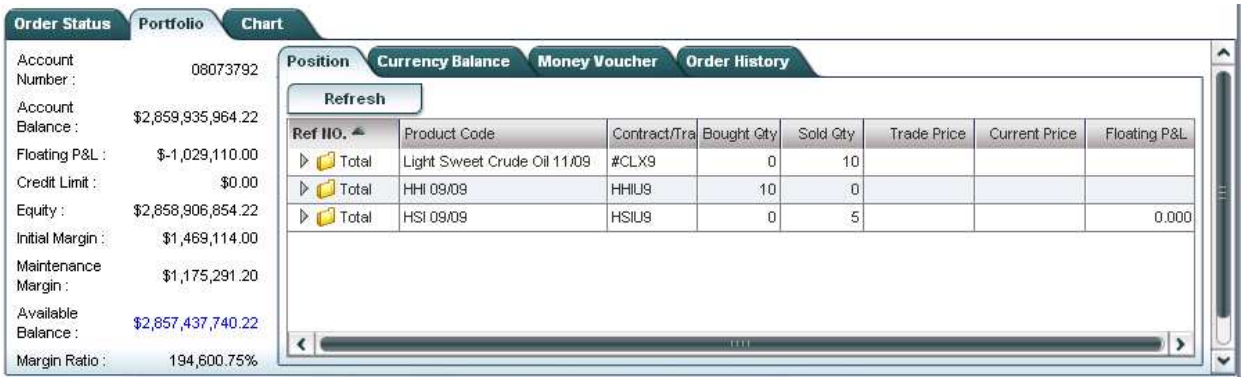
5.2 Money Voucher

It shows the money vouchers have been recorded in the previous month. Users can set the date range if they want to enquire the records that are more than one month and less than one year. Click "View" then a PDF report will be generated if you click "Save".



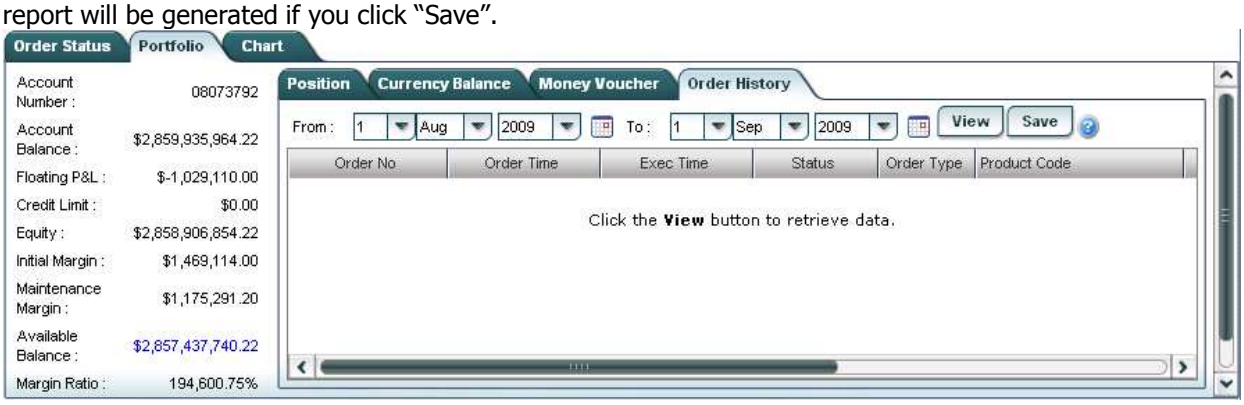
5.3 Position

It displays the open positions together with intra day transactions and they are grouped by different contracts.



5.4 Order History

It shows the order history records in the previous month. Users could set the date range if they want to enquire the records that are more than one month and less than three months. Click "View" then a PDF report will be generated if you click "Save".



6 Preference

Users can change the language and other preferences by selecting the link on the top right corner.

2. First Notice Day
I understand that I should, one day before the first notice day, either close out or give instructions to you to close out all long position(s) of futures involving physical delivery settlement and maturing in a current futures contract month. If I fail to do so, any outstanding long position(s) maturing in a current futures contract month as at one day before the first notice day will be closed out by you on my behalf by such methods as you may in your absolute discretion determine without notice to me.
3. Last Trading Day
I understand that I should, on the last trading day, either close out or give instructions to you to close out all outstanding position(s) of futures involving physical delivery settlement and maturing in a current futures contract month. If I fail to do so, any outstanding position(s) maturing in a current futures contract month as at the last trading day will be closed out by you on my behalf by such methods as you may in your absolute discretion determine without notice to me. I understand that only phone order will be accepted on last trading day.
4. Validity of Electronic Orders
I understand that all electronic orders will only be valid during the electronic trading hours and will be automatically cancelled if not executed by the end of the electronic trading hours of the relevant Exchange.
